

**Meeting of the MEMA ASC X12 Committee**  
**October 4, 1998**  
**TradeWinds Hotel**  
**ST. Petersburg, Florida**

**In Attendance:**

Lydia Bennett

Craig Adams

Bryan Long

Fletcher Rivers

The meeting was called to order at 10:00 a.m.

**Main Agenda:** Create Draft 004010 Versions of the current 003030 MEMA Purchase Order (850) and Invoice (810) Transaction Sets.

- Goals:**
- (a) Use/create change documents to help migrate from 003030 to 004010
  - (b) Review/modify existing guidelines and make recommended changes for a Draft 004010 version
  - (c) Record changes to segments/elements and determine and date and time for a follow-up meeting which addresses other Transaction Sets

Based on the "Change Documents" guidelines posted on the Aftermarket Web site, the group commenced by discussing a comparison of the 003030 and 004010 transaction sets. Noted were changes to some segments, elements, and field lengths (DISA 004010).

The group then further discussed the MEMA Purchase Order and Invoice guidelines and recorded recommended changes for draft 004010 versions.

Also proposed by the group was to schedule an interim meeting (between October 1998 and the next MISC X12 conference in 1999) in which other MEMA guidelines could be reviewed as well. It was agreed by consensus that an Interim Meeting should take place on January 19th, 1999 in Kansas City at the Haldex Midland facility. A decision was made to assign each person of the committee a different document so that all may be completely reviewed and discussed before the next MISC ASC X12 Conference:

⇒ Craig Adams will review the 832 and 852 Transaction Sets.

⇒ Lydia Bennett will review the 857 Transaction Set.

⇒ Bryan Long will review the 856 Transaction Set.

⇒ Fletcher Rivers will review the 855 Transaction Set.

**Other Notes:**

**Next Meeting:** Time, date, and location have yet to be determined.

There being no other business, the meeting was adjourned at 4:00p.m.
